Profile

I'm a front-end developer passionate about creating seamless and engaging user experiences. I use the latest advanced web technologies to transform ideas into tangible digital reality. I believe that good design isn't just about how they look, but also how the user interacts with the application. Therefore, I focus on building simple, interactive, and fast interfaces. I'm currently developing my skills through real-world projects and internships, and I'm looking to join a team that values creativity and innovation.

Professional Experience

03/2025 – 09/2025	**Route** ⬈

I completed a specialized Front-End development training program at Route. I mastered HTML5, CSS3, Bootstrap 5, JavaScript, DOM/BOM, and AJAX. I also learned jQuery, Sass, Tailwind CSS, TypeScript, and NPM with modern JavaScript fundamentals. I chose to specialize in React for building professional and interactive user interfaces.

01/2025 – 03/2025	**Almdrasa** ⬈

Completed a professional training program on the Almdrasa platform, covering Git and GitHub fundamentals for version control and collaborative development, along with practical use of ChatGPT to enhance productivity, content creation, and coding assistance.

03/2025 – 05/2025	**Sprints** ⬈

I completed a specialized Front-End Development training program at Sprints. I learned the fundamentals of User Interface (UI) and User Experience (UX) design. I gained skills in analyzing user needs and designing intuitive and visually appealing interfaces. The course focused on integrating design and technology to build efficient and user-friendly front-ends.

04/2025 – 06/2025	**Mahara Tech** ⬈

• Completed a professional course in JavaScript covering variables, functions, arrays, loops, and DOM manipulation.
• Gained hands-on experience through coding exercises and small projects.
• Learned freelancing fundamentals including creating profiles on platforms like Upwork, proposal writing, pricing services, and managing remote work.
• Developed essential digital skills for working independently in the tech industry.

05/2025 – 07/2025	**Devwave** ⬈

• Completed a hands-on React Front-End development training program.
• Gained experience in building interactive user interfaces using React components, props, state, and hooks.
• Worked with routing, state management (Context API), and form handling.
• Built real-world projects such as login pages, dashboards, and dynamic forms.
• Practiced version control with Git and collaborative development via GitHub.

05/2025 – 08/2025	**itida** ⬈ هيئه تنميه صناعه تكنولوجيا المعلومات

• Participating in a specialized training program focused on freelancing, remote work, and online job platforms.

• Learning how to create and optimize professional profiles on platforms like Upwork and Freelancer.
• Training includes soft skills, proposal writing, client communication, pricing strategies, and building a personal brand.
• Gaining insights into digital marketing, personal productivity, and remote client engagement.
